Micro Technology Solutions, Inc. Achieves Premier Certification from Cisco in USA

Fall River, MA – 12/8/14 – Micro Technology Solutions, Inc. announced today it has achieved Premier Certification from Cisco®. To earn Premier Certification, MTSi had to meet standards for networking competency, service, support and customer satisfaction set forth by Cisco.

“We are extremely excited to be a Cisco Premier Partner. This is a great achievement for MTSi, we are eager to continue implementing and optimizing Cisco Solutions with our customers.” –Jesse Cabral

As a Cisco Premier Certified Partner MTSi demonstrates a range of technical expertise. To achieve Cisco Premier Certification MTSi was required to achieve the Cisco Express Foundation Specialization. This specialization includes tests on technical competency in the integration of basic routing and switching, wireless LANs, and security technologies. In addition, MTSi was required to integrate a base level of Cisco Lifecycle Services into their offerings and demonstrate measurably high levels of customer satisfaction based on independently audited customer satisfaction surveys.

The Cisco Resale Channel Program provides partners with the training required to build sales, technical and Cisco Lifecycle Services skills. Cisco resale partner certifications—Gold, Silver, Premier and Select—represent an increasing breadth of skills across key technologies and a partner’s ability to deliver integrated networking solutions. Cisco resale partner specializations—Master, Advanced and Express—reflect an increasing depth of sales, technical and service expertise in particular technologies.
