Active Exploitation of SolarWinds Software

We want our customers to be aware that the recent supply chain attack on SolarWinds Orion Platform has not impacted SolarWinds N-central product.

To be clear at this time, we are not aware of an impact to our SolarWinds MSP products including RMM and N-central.

More Details:

SolarWinds has just been made aware our systems experienced a highly sophisticated, manual supply chain attack on SolarWinds® Orion® Platform software builds for versions 2019.4 HF 5 and 2020.2 *with no hotfix*, or 2020.2 HF 1. We have been advised this attack was likely conducted by an outside nation state and intended to be a narrow, extremely targeted, and manually executed attack, as opposed to a broad, system-wide attack. We recommend taking the following steps related to your use of the SolarWinds Orion Platform.

Cybersecurity in 2021: 5 Trends Security Pros Need to Know

For the past eight months, the global COVID-19 pandemic, along with the unprecedented shift to **work-from-home** for many employees, has altered the way both people and enterprises approach work and conduct business. And while many of these changes are likely to become permanent, **issues such as**

The Holiday Season is Here. How Are You Staying Safe?

It's the busiest time of year for everyone, especially cybercriminals. They know surges in online shopping, holiday travel, and time constraints can make it easier to catch users off their guard with relevant schemes.

That's why we have a resource kit to help your users make smarter security decisions every day.

Here is what you'll get from our partner KnowBe4:

- Free training video for your users on **"Stay Safe for the Holidays"**
- **Resources to share with your users** including infographics, awareness posters and a video with helpful tips.
- Access to **resources for you** to help with security planning for the upcoming year.
- **Printable and digital assets** that you can use to promote cybersecurity awareness in your organization throughout the holiday season.

Request your kit now to help your users make smarter security decisions this holiday season and beyond.
